STATE OF FLORIDA
MILITARY DEPARTMENT
OFFICE OF THE ADJUTANT GENERAL
ST. AUGUSTINE

December 31, 1942.

His Excellency, The Governor of Florida and Commander-in-Chief, State Armed Forces, Tallahassee, Florida.

SIR:

Herewith is submitted the biennial report of the Adjutant General of Florida, pertaining to the administration of the Division of Military and Naval Affairs of the Executive Department for the calendar years 1941 and 1942, pursuant to the provisions of Section 250.14 Florida Statutes, 1941.

FLORIDA DEFENSE FORCE

The federal government having called the National Guard into active military service to meet the serious emergency, Congress on October 21, 1940, amended the National Defense Act by permitting the several states to organize and maintain such State armed forces as might be considered necessary to meet internal security needs. Pursuant to this federal authority, the Florida Legislature by Act of April 22, 1941, enacted Chapter 251, Florida Statutes, which provided for the creation and maintenance of "such military forces as the Governor may deem necessary to assist the civil authorities in maintaining law and order."

CHAPTER 251
FLORIDA DEFENSE FORCE
LAWS OF FLORIDA—1941

251.01 *Authority and Name.*—Whenever any part of the national guard of this state is in active federal service, the governor is hereby authorized to organize and maintain within this state during such period, under such regulations as the secretary of war of the United States may prescribe for discipline in training, such military forces as the governor may deem necessary to assist the civil authorities in maintaining law and order. Such forces shall be composed of officers commissioned or assigned, and such able-bodied male citizens of the state as shall volunteer for service therein, supplemented, if necessary, by men of the state militia enrolled by draft or otherwise as provided by law. Such forces

Relj. Genl. 4-1-43

shall be additional to and distinct from the national guard and shall be known as the Florida defense force. Such force shall be uniformed.

251.02 *Organization; Rules and Regulations.*—The governor is hereby authorized to prescribe rules and regulations not inconsistent with the provisions of this chapter governing the enlistment, organization, administration, equipment, maintenance, training and discipline of such force: Provided, such rules and regulations, insofar as he deems practicable and desirable, shall conform to existing law governing and pertaining to the national guard and the rules and regulations promulgated thereunder and prohibit the acceptance of gifts, donations, gratuities or anything of value by such force or by any member of such force from any individual, firm, association, or corporation by reason of such membership.

251.03 *Pay and Allowances.*—The members of the Florida defense force shall receive no pay and allowances except when called out on active duty, during which time they shall receive the same base pay and allowances as are now provided by law for the national guard when on similar duty.

251.04 *Requisitions; Armories; Other Buildings.*—For the use of such force, the governor is hereby authorized to requisition from the secretary of war such arms and equipment as may be in possession of, and can be spared by, the war department; and to make available to such force the facilities of state armories and their equipment and such other state premises and property as may be available.

251.05 *Calling Out of Force.*—The Florida defense force may be called out to aid the civil authorities as now provided by the law for calling out the national guard; except that, whenever the adjutant general would be authorized to call out the Florida defense force, but is unable to do so for any reason, his assistant shall have such authority.

251.06 *Use Without This State.*—Such force shall not be required to serve outside the boundaries of this state except that any organization, unit or detachment of such force upon order of the officer in immediate command thereof, may continue in fresh pursuit of insurrectionists, saboteurs, enemies or enemy forces beyond the borders of this state into another state until they are apprehended or captured by such organization, unit or detachment or until the military or police forces of the other state or the forces of the United States have had a reasonable opportunity to take up the pursuit or

to apprehend or capture such persons; Provided, such other state shall have given authority by law for such pursuit by such forces of this state. Any such person who shall be apprehended or captured in such other state by an organization, unit or detachment of the force of this state shall without unnecessary delay be surrendered to the military or police forces of the state in which he is taken or to the United States, but such surrender shall not constitute a waiver by this state of its right to extradite or prosecute such person for any crime committed in this state.

251.07 *Permission to Forces of Other States.*—Any military forces or organization, unit or detachment thereof of another state, who are in fresh pursuit of insurrectionists, saboteurs, enemies or enemy forces may continue such pursuit into this state until the military or police forces of this state or the forces of the United States have had a reasonable opportunity to take up the pursuit or to apprehend or capture such persons, and they are hereby authorized to arrest or capture such persons within this state while in fresh pursuit. Any such person who shall be captured or arrested by the military forces of such other state while in this state shall without unnecessary delay be surrendered to the military or police forces of this state to be dealt with according to law. This section shall not be construed so as to make unlawful any arrest in this state which would otherwise be lawful.

251.08 *Federal Service.*—Nothing in this chapter shall be construed as authorizing such force, or any part thereof, to be called, ordered or in any manner drafted, as such into the military service of the United States, but no person shall by reason of his enlistment or commission in any such force be exempted from military service under any law of the United States.

251.09 *Civil Groups.*—No civil organization, society, club, post, order, fraternity, association, brotherhood, body, union, league, or other combination of persons or civil group shall be enlisted in such force as an organization or unit.

251.10 *Disqualifications.*—No person shall be commissioned or enlisted in such force who is not a citizen of the United States or who has been expelled or dishonorably discharged from any military or naval organization of this state, or of another state, or of the United States.

251.11 *Commissioned Officers.*—The term of commission in the Florida defense force shall be for three years, subject to termination at the pleasure of the governor prior to the expi-

ration of such period. The oath to be taken by officers commissioned in such force shall be substantially in the form prescribed for officers of the national guard substituting the words Florida defense force where necessary, and omitting the reference to the president of the United States.

251.12 *Enlisted Men.*—The term of enlistment in the Florida defense force shall be for three years, subject to termination at the pleasure of the governor prior to the expiration of such period. The oath to be taken upon enlistment in such force shall be substantially in the form prescribed for enlisted men of the national guard, substituting the words Florida defense force where necessary, and omitting the reference to the president of the United States.

251.13 *Articles of War; Freedom from Arrest; Jury Duty.*—(1) Whenever such force or any part thereof shall be ordered out for active service, the articles of war of the United States applicable to members of the national guard of this state in relation to courts-martial, their jurisdiction and the limits of punishment and the rules and regulations prescribed thereunder shall be in full force and effect with respect to the Florida defense force.

(2) No officer or enlisted man of such force shall be arrested on any warrant, except for treason or felony, while going to, remaining at or returning from a place where he is ordered to attend for military duty. Every officer and enlisted man of such force shall, during his service therein, be exempt from service upon any "possecomitatus" and from jury duty.

251.14 *Discharge of Force.*—The Florida defense force shall be discharged by the governor upon the return of the national guard to state control, or within thirty days thereafter.

251.15 *Expenses.*—The expenses incurred in carrying out the provisions of this chapter shall be paid from the fund for current expenses of the military department, by whatever name or title such fund shall be known and designated, upon requisition of the adjutant general, approved by the governor.

Pursuant to the above Act, this office promulgated necessary regulations governing the organization, equipment, maintenance, discipline, training and operation of the force. With consideration for the strategical need of the State, organizations were activated as follows:

AVIATION SECTION

The 1st Air Squadron, consisting of 26 commissioned officers and 41 enlisted men, was organized at West Palm Beach on May 28, 1941, and placed in command of Captain Wright Vermilya. The personnel of the Squadron furnished a total of 26 privately owned airplanes.

Additional Flight Sections consisting of 9 officers and 9 enlisted men each were organized at:

Miami on January 1, 1942;

West Palm Beach on January 13, 1942.

During the summer of 1942 this force operated on a volunteer basis in connection with the Civil Air Patrol on submarine lookout duty.

On August 31, 1942, the Civil Air Patrol accepted the entire aviation section on an active duty status in the war effort, therefore, it became necessary to withdraw its State Militia status and to discharge its personnel from the Florida defense force.

TRAINING

A program of progressive training has been established with a view of developing a dependable armed force, which would permit the Commander-in-Chief to supplement civil law enforcement authority in the maintenance of law and order, and to assure internal security to the State.

Units are assembled for a minimum of two hours drill and instructions at local armories each week where drill schedules as prepared by the several battalion commanders are carefully followed. Commencing with the school of the soldier a progressive program prepares the individual for such combat duty, including riot formations, as the limitations of weapons permit. Because of the large turnover in personnel, which averages around one hundred per cent each year, many soldiers may be found at all times in the recruit training squads, however it is believed that a nucleus of well-trained non-commissioned officers and key enlisted men are available for the efficient functioning of each unit.

With the limited budget of this Department it has not been possible to assemble the Florida defense force in its entirety for field training; however, valuable field exercises, where services were performed without pay, have been conducted by the several battalions at nearby rendezvous. The principles of Command, Minor Tactics and Internal Security, administration and economy are carefully followed in these exercises.

As long as these patriotic citizen soldiers are willing to sacrifice their time and effort to provide necessary State security, it is not believed to be for the best interest of the State to increase expenditures for this activity; therefore, the request for appropriations does not include State pay for this training.

ARMAMENT AND EQUIPAGE

The activation of the Florida defense force was encouraged by the federal government, and the War Department loaned the State 2,050 rifles, U. S. Cal. .30, for the armament of the force. However, serious losses of small arms by allied nations at Singapore, Bataan, Burma, Greece and Russia forced the War Department to recall these weapons during the month

of August, 1942, when they were replaced from the federal stocks with 12 ga. commercial shotguns. The following weapons, equipment, and clothing have been furnished by the Federal government:

Ordnance:

1938 Shot Guns, 12 ga. (commercial)	114 Sub-machine guns, .45 cal.
	645 Grenades, hand, gas.

Jackets, Lumber	2230	Trousers, work, denim, blue, pr. (CCC)	2250

In order that battalions might be adequately equipped to meet any emergency which might arise, it became necessary to expend a limited amount of State funds in the purchase of critical articles of equipment, which could not be obtained from federal sources. Property purchased from *State Funds*:

Ordnance:

20 Shot Guns, Riot Winchester, 12 ga.	16 Rifles, U. S. Cal. .30

DISBANDMENT OF UNITS

The following units of the Florida defense force, having failed to maintain the prescribed standards of enlisted strength and drill attendance, were disbanded:

COMPANY	STATION	DATE ORGANIZED	DATE DISBANDED
Co. D, 7th Bn.	Key West	July 14, 1941	May 2, 1942

Hqrs. 8th Bn.	Daytona Beach	August 4, 1941	May 12, 1942

DISBURSEMENTS

While the federal government has aided the Florida defense force by loans of certain military weapons, clothing and equipment, federal laws did not provide for financial aid, and it has been necessary to operate the force in a most economical manner in order to keep within Legislative appropriations. Disbursement of State funds for the fiscal years covered by this report is as follows:

FISCAL YEAR ENDING JUNE 30, 1941

Armory Maintenance and Improvements	\$ 8,688.96
Arsenal Maintenance and Improvements	4,633.71
Administration and training	38,226.65

BUDGET

Summary of appropriations requested for the ensuing bien-nium which is considered necessary for the operation of this headquarters and for the proper maintenance of an adequate armed force:

	1943	1944
Salaries	\$ 39,160.00	\$ 39,160.00
Regular Expenses	91,750.00	87,750.00
Special Expense (Motor Trucks)	3,000.00	
Total for Department	\$133,910.00	\$126,910.00

UNORGANIZED MILITIA

The estimated strength of the reserve militia of the State as defined in Section 250.04, Florida Statutes, 1941, and based on the 1940 census, has been considerably reduced over prior estimates because of heavy drafts on the State's manpower for the Nation's armed forces. As of December 31, 1942, this reserve is estimated as:

White men	158,282
Negro men	89,644
Total	247,926

CAMP BLANDING

In the report of this office for the year 1940, the original purchase of land comprising Camp Blanding, totaling 28,200 acres, was recorded. It was later found by our State Military officers that additional lands would be required to properly round out the Camp sites for adequate training purposes. Therefore the 1941 session of the State Legislature appropriated the sum of \$21,240 with authority to purchase 3040 acres of land adjoining the camp.

With the development of the National emergency, and the activities of the War Department in the area, only 2840 acres were purchased at a cost of \$18,344.10. This addition brings the total area of the State owned National Guard Camp up to 31,040 acres.

To accommodate the War Department, the State Armory Board turned the entire property over to the U. S. Army on December 1, 1940, and it has since been developed into one of the largest and best Army Camps in the South, housing at present around 50,000 federal troops, and furnishing unsurpassed training conditions.

RECORDS

A recent federal amendment to the pay schedules of the Army permits credit to former members of the National Guard for prior National Guard service in computing longevity pay. This liberal consideration of former service has caused more than six thousand calls on the Records section of the office for statements of prior National Guard service.

CONCLUSION

The following pages contain valuable historical data pertaining to the National Guard of Florida from the time of its induction into federal service to date.

Respectfully submitted,

VIVIAN COLLINS,
Brigadier General A. U. S.,
The Adjutant General, Florida.

EXECUTIVE ORDER

Extending the Periods of Training and Service, Active Military Service, and Enlistment of Persons in or Subject to Training and Service or Active Military Service.

By virtue of the authority conferred upon me by section 2 of the Service Extension Act of 1941 (Public Law 213, 77th Congress), approved August 18, 1941, and as Commander-in-Chief of the Army and Navy of the United States, it is ordered as follows:

1. The periods of training and service of all persons inducted for training and service under the provisions of the Selective Training and Service Act of 1940, as amended, who are now, or who may hereafter be, in such training and service are hereby extended for a period of eighteen months, unless such persons are sooner discharged. Notwithstanding such extension of the periods of training and service, the Secretary of War shall, as the interests of national defense permit, release from training and service and transfer to a reserve component of the land forces, as provided in section 3 (c) of the Selective Training and Service Act of 1940, as amended, all those persons who shall have completed twelve months of such training and service. The release of such persons from training and service and their transfer to a reserve component of the land forces shall be accomplished with a view to the early creation of a large trained reserve while, at the same time, maintaining the Army in immediate readiness for use in the defense of the nation.

2. The periods of active military service of all members of the Regular Army Reserve, all members of the Enlisted Reserve Corps, and all members and units of the National Guard of the United States, who are now, or who may hereafter be, in the active military service of the United States, pursuant to orders issued under the authority of Public Resolution No. 96, 76th Congress, approved August 27, 1940, are hereby extended for a period of eighteen months, unless such persons or units are sooner released or discharged. After completion in each case of twelve months of active military service by such persons and units, and as the interests of national defense permit, the Secretary of War shall provide for the release of such persons or units from active military service under such regulations as he shall from time to time prescribe.

3. The periods of enlistment of all persons who are now, or who may hereafter be, enlisted in the Regular Army, the Regular Army Reserve, the Enlisted Reserve Corps, and the National Guard of the United States are hereby extended for a period of eighteen months, unless such persons are sooner discharged. After completion in each case of the unextended period of enlistment by such persons, and as the interests of national defense permit, the Secretary of War shall provide for their discharge under such regulations as he shall from time to time prescribe.

FRANKLIN D. ROOSEVELT.

The White House, August 21, 1941.

(No. 8862)

Limitations and restrictions on the territorial use, and extending periods of service of the National Guard, in federal service, were removed by Public Law 338, 77th Congress, approved December 13, 1941, as follows:

"Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the provision of Public Resolution Numbered 96, Seventy-sixth Congress, approved August 27, 1940, as amended, and of Public, Numbered 783, Seventy-sixth Congress (the Selective Training and Service Act of 1940), as amended, insofar as they restrict the territorial use of units and members of the Army of the United States, are suspended during the existence of any war in which the United States is engaged, and during the six months immediately following the termination of any such war.

"Sec. 2. The periods of service, training and service, enlistment, appointment, or commission, of all members of the Army of the United States now or hereafter in or subject to active military service of the United States are extended for the period stated in the preceding section: Provided, That nothing in this section shall be construed to prevent the President from terminating such periods of service, training and service, enlistment, appointment, or commission at an earlier date in any case.

"Sec. 3. Section 1 of the National Defense Act of June 3, 1916, as amended, is amended by striking out the period at the end thereof and inserting in lieu of such period a comma and the following: 'and shall include persons inducted into the land forces of the United States under Public, Numbered 783, Seventy-sixth Congress (the Selective Training and Service Act of 1940), as amended'."
